Please help us to find a cure
Make a donation today.

All HIV research offered at St Stephen's Centre is provided by St Stephen's AIDS Trust. We do not receive government funding but rely on income from our clinical trials activity and the generous support from donations and legacies.

Our goal is to provide the best possible treatment for all those living with HIV and to provide the best possible clinical environment.

Your generous donation will help to ensure that we remain one of the best HIV centres in the world.

Donations can be made online via our website

JC, a patient since 1995 says

“Over the years I have had so many combinations of drug therapy, and over time have become more immune resistant. The research unit at St Stephen's Centre has given me the opportunity to trial new drug combinations, with constant support and back up at every stage. Everything is explained before, during and after with courtesy and dignity. Well done and thank you to all the team who have made my treatment both available and successful”

“I would not be here today if it wasn't for the research, it's kept me alive” **K**

“From my first diagnosis to today the care and attention I have received from all the doctors, nurses and other staff has been exemplary” **RM**

“Thank you for all that you have done for me, I am living with HIV far beyond the age I expected to reach” **CB**
